## **Rishabh Dixit**

## **Projects**

Greetings Live Code

Next.js • Chakra UI • MongoDB

Social media application built with Next.js where users can share content.

Handling of authentication & authorization is done using JWT's.

Used Cloudinary as an Image storage bucket.

ShopKart Live Code

React • Express.js • MongoDB • Tailwind CSS

An e-commerce platform with React & Redux on the frontend and Node-Express Server as backend.

Handling of authentication & authorization is done using JWT's.

Products can be added, edited and deleted via the admin panel.

Users can review the products they like.

Tasker <u>Live</u> <u>Code</u>

React • Firebase • Tailwind CSS

A website that helps you manage and tracks your tasks at various stages of completion.

Incorporated Firebase Auth to handle user-authentication and Firestore to store tasks.

Used the concept of a Kanban Board to design the website.
